

FRENCH FESTIVAL ELECTRICITY FORM: Please return by July 3

BOOTH NAME:

Electrical Power you paid for with registration:

- Power Level 1 \$50 - 110 volt, 200 watts (no more than 5 amps total)
- Power Level 2 \$150 - 110 volt, 2000 watts (no more than 20 amps total)
- Power Level 3 \$200 - 110 volt, 4000 watts (Two 20 amp circuits, no more than 40 amps total)
- Power Level 4 \$250 - Special needs above Level 3, contact us to arrange specifics

Please note that providing electricity in the park is one of the most expensive and difficult parts of putting on the Festival. In order to make things run as smoothly as possible we employ 2 great electricians, but we also need your help. Please be **COMPLETELY THOROUGH AND COMPLETE** about **ALL** of the electrical items you will be using. (ITEMS THAT ARE NOT ON THIS LIST WILL NOT BE PROVIDED WITH POWER AT THE FESTIVAL)

List ALL the electrical items you will be using: (include the type of equipment and amps it requires)

Please note you will need to supply your own extension cords to run the electricity from the source to your booth. These should be heavy-duty 3-prong grounded cords.

Also note, that if you are running any equipment other than the items listed the electricians cannot assure that your power will work effectively and will only work to make sure that you have power for the items listed. Please be as thorough as possible. Additionally, your booth will not be powered above the amps that you have paid for.

Please call 805-963-8198 or email frenchfestival@sbcxmail.com if you have any questions or need any other information.
